BATTLE TIDE SWINGS IN FAVOR OF RUSSIA

Except at Dvinsk Russians Appear to Have the Better of Battle Raging Along the Eastern Front of Great War.

FIGHTING IN WEST OF BIG ARTILLERY

Balkan Situation Is Rapidly Changing to a Climax; Germany Shows Resentment at Rumania for Her Attitude.

LONDON, Sept. 25.—The battle tide on the eastern front seems to be swinging more with the Russians, except in the north where Dvinsk is the object of a heavy attack. The Germans are making headway in their drive on this city and on Dvinsk. Fighting on the western front is mainly with heavy artillery, although the claim is now made that the Allies' offensive is to begin. A French air attack was made on Sablon and on the railroad station at Metz, dropping forty bombs. Apparently there are no recent happenings of moment in the Dardanelles.

In the southern and central districts around Pinsk, in Volhynia, Galicia, the Russians appear in the ascendancy. With Lutsk again in their possession they have Dubno to capture to complete reclaiming the Volhynian fortress triangle. It is reported that 40,000 Austrian prisoners passed through Kiev on their way to interior camps.

The situation in the Balkans is developing rapidly. Bulgarian and Greek mobilization is proceeding rapidly. German newspapers show resentment at the attitude of Rumania, which is regarded as far from friendly to the central powers.

BERLIN CLAIMS REPULSE

BERLIN, Sept. 25.—The German official communication says that after an artillery preparation of great intensity, which at some points lasted fifteen hours, the expected Anglo-French offensive has begun on the western front. The communication claims the northern British line has already been repulsed and the French repulsed near Souchez and Neuville. At most points between Champagne and Argonne, they have been losing heavily from artillery fire.

Along the entire front from the sea to the Vosges the enemy's artillery fire has increased. It is especially violent at Ypres, also in Champagne and between Ypres and Roulers. A combined attack began early this morning. The British advance was repulsed after hard hand fighting. The French penetrated the trenches near Souchez but were again ejected. The French were also repulsed on both sides of Neuville. The retreat of the enemy suffered considerable losses. Hand to hand fighting is now going on in some parts of the front.

SHELL BELGIAN COAST

LONDON, Sept. 25.—Since Monday there has been a continuous bombardment of Ostend, Zeebrugge and other points on the Belgian coast. Reports say the enterprise now being attempted may change the whole aspect of the war on the western front. Dispatches from Holland say heavy firing has been heard north of Ameland which indicates that if the Germans naturally attempted to oppose the English ships a part of the German fleet ventured out. On the Italian frontier heavy gun fire was occasionally interrupted to give the infantry an opportunity to attack.

BIG LOAN DRAGS

NEW YORK, Sept. 25.—Negotiations towards establishing the half billion credit to Great Britain and France have made little apparent progress and no one in close touch would give the credited report that the commission had submitted to the government a rough draft of terms satisfactory to the American bankers and was awaiting a reply before proceeding. One report denied that the commission intended to depart to Europe next Saturday and there appeared no change of reported tentative terms of the loan, the maximum to be a half billion covered by the issue of Anglo-French five-year notes bearing five per cent to be sold to the investor at less than par.

Ardent Dry Worker Faces Charges of Violating the Amendment

Walter Hill, Church and Sunday School Worker, Ardent Prohibitionist, Charged With Selling Intoxicating Liquors.

PHOENIX, Sept. 25.—County Attorney Gandy has filed information against Walter Hill, former President of the State Sunday School Association and prominent in church and Sunday school work, as well as prominent in the recent prohibition campaign on the side of the Dry, for the violation of the Prohibition Amendment, for which he claims to have worked so hard.

This action followed the conviction of E. Troutner, recently, for a violation of the same amendment. Troutner was convicted for selling bulldog cider and claims to have done so for Hill. Troutner acting merely as city salesman. A bench warrant will be issued in the Hill case, probably as soon as the matter can have the attention of either of the Superior Court judges.

W. N. Bridges, formerly State Superintendent of Insurance, and J. C. Foster, agents for the National Life Insurance Company of America, were arrested here on a telegram from Benson alleging felony charges. Both were released on bond and are awaiting hearing.

DEAF AND DUMB AMERICANS ARE SUFFERERS

D. O. Watson, of Cananea, With Wife and Two Children, Deaf and Dumb, Only Americans to Suffer From Looting.

To be singled out, of all the business houses in the town of Cananea, as the object of looters was the experience of D. O. Watson, who conducts the Sonora Saddlery in the mining town. The experience of Watson is all the more harrowing because of the fact that he is deaf and dumb, his wife is likewise and two of his three children are mutes.

Watson, with his family, came from Cananea, yesterday, by automobile. They have elected to stay in Naco until conditions readjust themselves in the Sonora mining camp. Mrs. Watson, who is in delicate health, received a severe shock from her encounter with the looters and it is the hope of her husband that the peaceful condition of Arizona may benefit her.

The looting of the Watson Saddlery establishment took place Thursday morning about 2:30 o'clock. Though the American did not know the looters, they, apparently, knew him for they made no effort to talk to either him or his wife and used the sign language in making their demands. After the first attempt Watson informed the United States Consul of the affair but the looters returned again to the place at 10 o'clock the same morning.

The Watsons lost everything they had on the place. Saddles, chaps, tools, considerable cash, several checks, a gold watch and everything else of value around the place. In entering the shop they found Mrs. Watson asleep in the second room. The looters entered and ordered her to open the safe. At first she refused to comply with their demands. They leveled their guns at her and, using the sign language said they would shoot. For her children she opened the safe and the looters proceeded to ransack the place.

The looters were sympathizers of Maytorena, but had no connection with the Governor of Sonora. They were the same bandits who entered Cananea the same night and made the day hideous for the residents of the town.

Watson intends to take the matter up with Governor Maytorena and seek remuneration for his losses there. He is also going to take the matter up with the state department at Washington and tell that department of his appeal to the officers there and to the consul.

LABOR PEACE PROBABLE AT CLIFTON

Arrangements Made for a Conference Between Employees of Companies and the Mine Managers This Morning.

EMPLOYEES RENOUNCE WESTERN FEDERATION

In Resolutions Come to the Agreement Not to Ask for Recognition of Union But to Confer on the Merits of Question.

CLIFTON, Sept. 25.—At 8 p. m. it is announced that a conference has been arranged for eleven o'clock tomorrow morning.

RESOLUTIONS OFFERED.

CLIFTON, Sept. 25.—As a result subsequent to mass meetings, held among the employees at Morenci, Clifton and Metcalf, on Friday and today indications are that a conference between the employees and mine managers is about to be speedily arranged although there is no official announcement yet.

Resolutions, unanimously adopted at these meetings, follow: "Whereas the employees in the mining industry of the Clifton-Morenci-Metcalf Districts have been on strike; "And whereas the mine managers of this district have declared their willingness to meet a committee of their employees, elected for and by their co-workers, provided that they declare their willingness to return to work and would return upon an adjustment of the differences and, further, that they would not ask for recognition of the Western Federation of Miners, now or at any time;

"And whereas workmen always desire the continuous operation of industry in order that they might have steady employment and, further, that the workers of this district did not go out for the benefit of any organization but struck for an adequate and just compensation for their toil and the exercise of their rights as citizens and men.

"Therefore, be it resolved by the strikers of Clifton-Morenci-Metcalf that we do now comply with the conditions which the mine managers have declared essential, preliminary to the holding of a conference and the adjustment of differences that we have no intention of asking for the recognition of the Western Federation of Miners now or at any other time, this to the end that industrial peace may be restored and mutual respect and good will obtain in the relations between employers and employees, ratified by unanimous vote of strikers in mass meeting held at Morenci and Clifton on the 24th day of September and at Metcalf on the 25th day of September."

GOLD RESERVE INCREASE.

WASHINGTON, Sept. 25.—Gold in the vaults of the federal reserve banks has increased more than three million during the past week according to a statement issued by the federal reserve board.

SOLDIERS DEMONSTRATE.

NEW YORK, Sept. 25.—What the soldiers of New York City are capable of doing in time of war was demonstrated when ten thousand of the National Guard engaged in maneuvers before thousands of spectators. Governor Whitman of New York, and Governor Walsh of Massachusetts, witnessed the maneuvers. The construction of pontoon bridges and work on ground mines were shown.

ROCKEFELLER STILL BUSY

PUEBLO, Sept. 25.—Rockefeller Jr., tonight completed the first week of the inspection of the properties of the Colorado Fuel and Iron company. He spent the day at the mines in Fremont County. Monday he begins a series of conferences with company officials in Denver as to what policies will be the result of his inspection trip.

Since Monday Rockefeller has driven on hundreds of miles over mountains and plains in an automobile. He has dug coal, descended shafts, eaten beef steak and beans in miners' boarding houses, and danced with miners' wives and daughters. Beneath the surface in these stunts there was a steady current of serious investigation. He has avoided the intention to study first hand labor as a result of the tragic strikes of 1913-14.

ALL IN READINESS FOR G. A. R. ENCAMPMENT AT WASHINGTON

Left to right: Secretary of War Garrison, who will review Civil war veterans; William F. Gude, chairman of committee in charge of arrangements; Col. David J. Palmer, commander in chief of G. A. R. Bothers, reviewing stand in front of White House.

RESPONSIBILITY FOR ATTACK IS DISCLAIMED

Carranza Commander and General Funston Disclaim Responsibility for Their Troops for Recent Progresso Fight.

WASHINGTON, Sept. 25.—Funston and General Nafarrete, the Carranza commander, both disclaim for their men the responsibility for the fighting near Progresso, in which one American soldier was killed and 25 officers wounded. Carranza said he had not pulled a riding party which had crossed the border under the protection of Mexican soldiers in uniform. Carranza claims none of his troops were in that vicinity.

A full report of the recent border fighting was made to the State Department today by the War Department. It is admitted that civilians of Texas are provoked over the attacks. Officials are puzzled over the situation. Carranza ordered General Trevino to make an investigation. Until authentic information is obtained regarding the cause of the raids the policy of the American government will not be changed.

NO FURTHER FIGHTING

BROWNSVILLE, Sept. 25.—There was no further fighting in this vicinity today but it is apparent that army officers are taking extra precautions to forestall a repetition of outlawry. Private Richard Johnson, reported missing after yesterday's battle, has not been found.

According to information, Private Johnson, a member of a detail of three men, was left on the banks of the Rio Grande by a detachment of cavalrymen which engaged in a fight later.

The two others are reported unable to say what became of Johnson. The body of Private Henry Stabfield, killed at Progresso, was brought here.

Annual Encampment for Which Unusual Preparations Have Been Made Finds Washington Ready in Holiday Attire.

WASHINGTON, Sept. 25.—Thousands of veterans of the Union army are here on the eve of the forty-ninth annual encampment of the Grand Army of the Republic.

Fifty years after the last shot was fired survivors of the union which marched in review from the Capitol to the White House, are to retrace their steps next Wednesday.

In the court of honor where President Johnson stood September 29, 1865, President Will stand to greet the remnant of the victorious armies of Grant and Sherman. Elaborate plans have been made to assure the success of the encampment and the city is in holiday array.

Pennsylvania avenue through which the military band will march is lined with the national colors and flags flutter from windows and house-tops.

By tomorrow it is expected 30,000 veterans, many of them survivors of the 160,000 who participated in the grand review of 1865, will have reached the city. Preparations for entertaining 100,000 visitors have been made. On the opening day of the encampment various informal receptions will be held and much of the time given over to registration under a system whereby veterans can easily find old comrades.

President Wilson will attend the first formal reception in a huge auditorium adapted for the purpose in the old Census building near the Capitol which also will contain headquarters of the various departments and army court of the Grand army and allied organizations during the encampment. The following day the military review will be held.

General Nelson A. Miles, who will act as Marshal of the review, taking the place General Sherman occupied in 1865, and David J. Palmer, Commander-in-Chief of the G. A. R. already have arrived. Among others who are here or expected by tomorrow are the following noted veterans:

General James H. Wilson, of Wilmington, Del., and General Granville M. Dodge, of Council Bluffs, Iowa, the only two living corps commanders of the Union army; division commanders General Adelbert Ames, of Mississippi; Gen. D. McM. Gregg, of Pennsylvania; General Lewis A. Grant, Minn.; Gen. J. Warren Kiefer, of Ohio; and Brig. Gen. John T. Wilder, of Knoxville, Tenn. Nearly all the veterans who marched with Sherman and Grant are enrolled for the line of march Wednesday have passed seventy years of age and it is probable that another commemoration of the event never will be held.

The line of march for the parade (Continued on Page 2)

EVACUATION OF NACO SLATED FOR TODAY

Preparations Point to Supposition That Border Port Will Be Left By Calles; Latter Goes to Base at Agua Prieta.

That Naco and the entire line of the Naco-Cananea railroad will be evacuated today by the forces of General Calles is the opinion of those who are in close touch with the border situation. From every appearance preparations have been going on for several days looking to this end. Calles is getting back to his headquarters at Agua Prieta in order to make preparations for the alleged movement of Villa troops from Chihuahua to Sonora.

Cananea is quiet and, yesterday morning, was controlled by no faction. The Calles soldiers had again gone back to their camp and the Maytorena troops had not appeared. Since Thursday there has been no more looting in the town.

Calles troops are scattered from Villa Verde all along the Naco-Cananea railroad to Naco. Yesterday and last evening Naco was humming with activity. Much of the furniture and other effects in Naco belonging to Calles has been moved and is prepared to be transported to Agua Prieta. The Calles aeroplane, last evening was taken from its hangar and put through several tests.

There has been no actual fighting between the Maytorena and Calles forces for several days. Scouts of the two armies may have come together but, outside of that there has been nothing to indicate an actual engagement at arms.

The residents of Naco, Sonora, and Naco, Arizona, expect the former place to change hands at once. They believe Calles is going back to Agua Prieta and there await the coming of Villa and his forces. It is also asserted that Villa, if he comes to Sonora, will be followed closely by Obregon and that Sonora will be the final battleground of the present revolution in Mexico.

Though the Callesistas, at the present time, appear to be on the run, they have, and express, the greatest confidence in the ultimate end of their cause. They declare that Obregon will not allow Villa and Maytorena to dominate Sonora for any length of time.

SUBWAY AGAIN IS SCENE OF DEATH AND INJURY

One Killed and Three Hurt When Subway, on Broadway, Near Thirty-eighth Street, Gives Away, Leaving yawning Hole.

ACCIDENT OCCURRED IN THE THEATRE DISTRICT

Several Are Reported Missing; Accident Is Similar to That Which Occurred Wednesday When Seven Were Killed.

NEW YORK, Sept. 25.—One was killed and three hurt as a result of the caving in of the street over the new subway in Broadway, near Thirty-eighth Street. An unidentified woman was caught in the debris and died later in the hospital. Several workmen are reported missing. The accident occurred a few blocks from the heart of the theatre district when the street was crowded. It was similar to the accident Wednesday when seven were killed.

The caving in of the supports, in the subway, due to the weight of traffic is believed to have been the cause of the accident. Beams of plank collapsed, making a hole fifty feet long and thirty deep. Two of the injured were passengers in an auto, carried into the pit.

A crowded street car was approaching just prior to the cave in when the workmen saw the tracks ahead he applied the brakes. A series of persons were carried down with the mass of twisted timbers. Police and firemen were called out. Ties and wall timbers were broken but the flow was quickly shut off. The fire department ordered fire theatres closed for the night.

KILLED IN MINE.

CRIPPLE CREEK, Sept. 25.—Thomas Ward and his brother James, leaders of a mine, were killed when the cage caught in the timber and precipitated them three hundred feet to the bottom of the shaft. Their bodies were badly mangled and were not recovered from the pool for two hours.

ITALIAN OFFICIAL RESIGNS

ROME, Sept. 25.—The cabinet has accepted the resignation of Vito Adami, Minister of Marine. Premier Salandra assumes the portfolio provisionally. It is said the minister resigns because of ill health.

NO BULGARIAN SPLIT

PERLIN, Sept. 25.—A Sofia dispatch says all danger of a split in the Bulgarian cabinet is avoided. The opposition leaders are opposed to military measures and declare their intention to support Premier Radoslavoff.

BULGARIAN ARMED NEUTRALITY

SOFIA, Sept. 25.—It is officially stated that Bulgaria has merely declared armed neutrality like Holland and Switzerland and will continue as amiable with the two groups of belligerents.

STRIKE PRECAUTIONS.

CHICAGO, Sept. 25.—Chief of Police Healey ordered all police thoroughly equipped and summoned his assistants to make plans for emergencies in anticipation of a strike of 40,000 garment workers Monday.

ROBBED IN DAYLIGHT

NEW YORK, Sept. 25.—Three men sprung from an automobile to a crowded sidewalk in broad daylight, blackjacked Charles Fried, a cashier, and robbed him of a satchel containing \$2,900. They jumped back into the auto and sped away before the alarm was given to the police. The crowd made no attempt to interrupt the bandits. Fried was taking the money to the bank.

PETROGRAD IN CRISIS

BERLIN, Sept. 25.—The Overseas news agency information from Petrograd pictures conditions as serious. Facilities for taking four supplies to the capital are inadequate. Bakers are shutting down for lack of supplies. Fueling threatens by the end of the week. Sugar, salt, tobacco and petroleum are not obtainable. Military hospitals are evicting all fuel.
